

## **SALES AND CREATIVITY**

Interested in bringing life back in to your sales and being more creative?  
We have the workshop for you.

### **THE CREATIVE SOUND WORKSHOP**

This workshop takes you in to the right side of your brain where your creativity lies. Through the use of sound and play we work with activating your creativity and your gifts and then applying this to all aspects of your life. It is also very useful with time and stress management and life management in general.

You can join an open workshop or we can come in to your company/organisation and work with your team/s.
